

Content of Add a New Record to a Table.vbs (Site 1)

' Description: Demonstration script that adds a new record to a database.

```
Const adOpenStatic = 3  
Const adLockOptimistic = 3
```

```
Set objConnection = CreateObject("ADODB.Connection")  
Set objRecordSet = CreateObject("ADODB.Recordset")
```

```
objConnection.Open _  
    "Provider = Microsoft.Jet.OLEDB.4.0; " & _  
    "Data Source = inventory.mdb"
```

```
objRecordSet.Open "SELECT * FROM GeneralProperties" , _  
    objConnection, adOpenStatic, adLockOptimistic
```

```
objRecordSet.AddNew  
objRecordSet("ComputerName") = "atl-ws-01"  
objRecordSet("Department") = "Human Resources"  
objRecordSet("OSName") = "Microsoft Windows XP Professional"  
objRecordSet("OSVersion") = "5.1.2600"  
objRecordSet("OSManufacturer") = "Microsoft Corporation"  
objRecordSet.Update
```

```
objRecordSet.Close  
objConnection.Close
```
