

Content of Add an Extension File.vbs (Site 1)

' Description: Adds the BITS_Update.dll extension file.

```
strComputer = "."  
Set objWMIService = GetObject _  
    ("winmgmts:{authenticationLevel=pktPrivacy}\" _  
    & strComputer & "\root\microsoft\bits")  
Set colItems = objWMIService.ExecQuery _  
    ("Select * From IISWebService")  
For Each objItem in colItems  
    objItem.AddExtensionFile  
        "C:\WINDOWS\system32\bits_update.dll", False, _  
        "BITSEXT", True, "BITS Update"  
Next
```
