

## Content of Assign a Default Printer.vbs ( Site 1 )

' Description: Sets the default printer on a computer.

```
strComputer = "."  
Set objWMIService = GetObject("winmgmts:"  
    & "(impersonationLevel=impersonate)!\" & strComputer & "\root\cimv2")  
Set colInstalledPrinters = objWMIService.ExecQuery _  
    ("Select * from Win32_Printer Where Name = 'ScriptedPrinter'")  
For Each objPrinter in colInstalledPrinters  
    objPrinter.SetDefaultPrinter()  
Next
```
