Content of Auto-Generate a File Name.vbs (Site 1)

' Description: Demonstration script that uses the FileSystemObject's GetTempName method to generate random file names. Script must be run on the local computer.

```
Set objFSO = CreateObject("Scripting.FileSystemObject")

For i = 1 to 10
    strTempFile = objFSO.GetTempName
    Wscript.Echo strTempFile
Next
```

```
Set objFSO = CreateObject("Scripting.FileSystemObject")

For i = 1 to 10
    strTempFile = objFSO.GetTempName
    Wscript.Echo strTempFile
Next
```
