

Content of Copy a Folder Using the Shell Object.vbs (Site 1)

' Description: Uses the Shell object to copy the folder C:\Scripts to D:\Archives. Displays the Copying Files progress dialog as the folder is being copied.

```
Const FOF_CREATEPROGRESSDLG = &H0&
```

```
ParentFolder = "D:\Archive"  
Set objShell = CreateObject("Shell.Application")  
Set objFolder = objShell.Namespace(ParentFolder)  
objFolder.CopyHere "C:\Scripts", FOF_CREATEPROGRESSDLG
```
