

Content of Create a User Account.vbs (Site 1)

' Description: Creates a user account in Active Directory. This script only creates the account, it does not enable it.

```
Set objOU = GetObject("LDAP://OU=management,dc=fabrikam,dc=com")
```

```
Set objUser = objOU.Create("User", "cn=MyerKen")  
objUser.Put "sAMAccountName", "myerken"  
objUser.SetInfo
```
