

Content of Delete Debugging Comments.vbs (Site 1)

' Description: Demonstrates the use of the FileSystemObject as a way to remove debugging comments from a script. Requires comments to have been marked as " BUG.

```
Const ForReading = 1
Const ForWriting = 2

Set objFSO = CreateObject("Scripting.FileSystemObject")
Set objTextFile = objFSO.OpenTextFile("C:\Scripts\CreateUser.vbs", ForReading)

Do While objTextFile.AtEndOfStream <> true
    strNextLine = objTextFile.Readline
    intCheckForBugComment = Instr(strNextLine, "** BUG")
    If intCheckForBugComment = 0 Then
        strSavedLines = strSavedLines & strNextLine & VbCrLf
    End If
Loop

Set objTextFile = objFSO.OpenTextFile _
("c:\scripts\CreateUser.vbs ", ForWriting)
objTextFile.Write strSavedLines
objTextFile.Close
```
