

Content of Delete Everyone Except the Administrator and the Domain Admins Group from the Local Administrators Group.vbs (Site 1)

```
strComputer = "atl-ws-01"

Set objGroup = GetObject("WinNT:///" & strComputer & "/Administrators")

For Each objUser In objGroup.Members
    If objUser.Name <> "Administrator" AND objUser.Name <> "Domain Admins" Then
        objGroup.Remove(objUser.AdsPath)
    End If
Next
```
