

Content of Determine the Default Script Host on a Computer Before I Run a Script.vbs (Site 1)

```
Const HKEY_CLASSES_ROOT = &H80000000
strComputer = "."
Set objRegistry = GetObject("winmgmts:\\" & strComputer & "\root\default:StdRegProv")
strKeyPath = "VBSFile\Shell\Open\Command"
objRegistry.GetExpandedStringValue HKEY_CLASSES_ROOT, strKeyPath, vbNullString, strValue
strValue = LCase(strValue)
If InStr(strValue, "wscript.exe") then
    Wscript.Echo "WScript"
Else
    Wscript.Echo "CScript"
End If
```
