

Content of Enable Full System Restore.vbs (Site 1)

' Description: Enables system restore on a computer. This is equivalent to clearing the checkbox Turn off System Restore (found by right-clicking My Computer, clicking Properties, and then clicking on the System Restore tab)

```
strComputer = "."  
Set objWMIService = GetObject("winmgmts:"  
    & "(impersonationLevel=impersonate)!\" & strComputer & "\root\default")  
  
Set objItem = objWMIService.Get("SystemRestore")  
errResults = objItem.Enable("")
```
