

## Content of Install a Service.vbs ( Site 1 )

' Description: Installs a hypothetical service named Db.exe.

```
Const OWN_PROCESS = 16  
Const NOT_INTERACTIVE = False  
Const NORMAL_ERROR_CONTROL = 2
```

```
strComputer = "."  
Set objWMIService = GetObject("winmgmts:"  
    & "(impersonationLevel=impersonate)!\" & strComputer & "\root\cimv2")  
Set objService = objWMIService.Get("Win32_BaseService")
```

```
errReturn = objService.Create("DbService", "Personnel Database",  
    "c:\windows\system32\db.exe", OWN_PROCESS, NORMAL_ERROR_CONTROL,  
    "Manual", NOT_INTERACTIVE, "NT AUTHORITY\LocalService", "" )
```
