Content of List All Disk Drives.vbs (Site 1)

' Description: Demonstration script that uses the FileSystemObject to return a list of all the disk drives installed on a computer. Script must be run on the local computer.

```
Set objFSO = CreateObject("Scripting.FileSystemObject")
Set colDrives = objFSO.Drives

For Each objDrive in colDrives
    Wscript.Echo "Drive letter: " & objDrive.DriveLetter
Next
```

```
Set objFSO = CreateObject("Scripting.FileSystemObject")
Set colDrives = objFSO.Drives

For Each objDrive in colDrives
    Wscript.Echo "Drive letter: " & objDrive.DriveLetter
Next
```
