

## Content of List All the Files on a Users Desktop.vbs ( Site 1 )

```
Const DESKTOP = &H10&
Set objShell = CreateObject("Shell.Application")
Set objFolder = objShell.Namespace(DESKTOP)
Set objFolderItem = objFolder.Self

Set collItems = objFolder.Items
For Each objItem in collItems
    Wscript.Echo objItem.Name
Next
```
