

Content of List Disk Quota Entries.vbs (Site 1)

' Description: Enumerates disk quota information (including user name, warning and quota limits, and disk space used) for each disk quota entry on a computer.

```
strComputer = "."
Set objWMIService = GetObject("winmgmts:"
    & "(impersonationLevel=impersonate)!\" & strComputer & "\root\cimv2")
Set colDiskQuotas = objWMIService.ExecQuery("Select * from Win32_DiskQuota")
For each objQuota in colDiskQuotas
    Wscript.Echo "Disk Space Used: " & vbTab & objQuota.DiskSpaceUsed
    Wscript.Echo "Limit: " & vbTab & objQuota.Limit
    Wscript.Echo "Quota Volume: " & vbTab & objQuota.QuotaVolume
    Wscript.Echo "Status: " & vbTab & objQuota.Status
    Wscript.Echo "User: " & vbTab & objQuota.User
    Wscript.Echo "Warning Limit: " & vbTab & objQuota.WarningLimit
Next
```
