

Content of List Disk Space by User Using Disk Quotas.vbs (Site 1)

' Description: Uses disk quotas to report the amount of disk space being used by each individual user on a computer.

```
strComputer = "."
Set objWMIService = GetObject("winmgmts:"
    & "(impersonationLevel=impersonate)!\\" & strComputer & "\root\cimv2")
Set colQuotas = objWMIService.ExecQuery("Select * from Win32_DiskQuota")
For Each objQuota in colQuotas
    Wscript.Echo "Volume: " & objQuota.QuotaVolume
    Wscript.Echo "User: " & objQuota.User
    Wscript.Echo "Disk Space Used: " & objQuota.DiskSpaceUsed
Next
```
