

## Content of List Installed Administrative Tools.vbs ( Site 1 )

' Description: Uses the Shell object to enumerate all the Administrative Tools installed on a computer.

```
Const ADMINISTRATIVE_TOOLS = &H2f&
Set objShell = CreateObject("Shell.Application")
Set objFolder = objShell.Namespace(ADMINISTRATIVE_TOOLS)
Set objTools = objFolder.Items

For i = 0 to objTools.Count - 1
    Wscript.Echo objTools.Item(i)
Next
```
