

## Content of Modify Bookmark Text in a Word Document.vbs ( Site 1 )

' Description: Demonstration script that changes the text of two different bookmarks in an existing Microsoft Word document.

```
Set objWord = CreateObject("Word.Application")  
objWord.Caption = "Test Caption"  
objWord.Visible = True
```

```
Set objDoc = objWord.Documents.Open("c:\scripts\word\bookmarkdoc.doc")
```

```
Set objRange = objDoc.Bookmarks("NameBookmark").Range  
objRange.Text = "Bob"
```

```
Set objRange = objDoc.Bookmarks("AddressBookmark").Range  
objRange.Text = "999"
```
