

Content of Modify Print Job Priority.vbs (Site 1)

' Description: Uses ADSI to change the priority of current print jobs based on the size of those print jobs.

```
Set objPrinter = GetObject _  
("WinNT://atl-dc-02/ArtDepartmentPrinter, printqueue")
```

```
For Each objPrintJob in objPrinter.PrintJobs  
  If objPrintJob.Size > 400000 Then  
    objPrintJob.Put "Priority", 2  
    objPrintJob.SetInfo  
  Else  
    objPrintJob.Put "Priority", 3  
    objPrintJob.SetInfo  
  End If  
Next
```
