

Content of Move the Oldest File in a Folder to a Different Folder.vbs (Site 1)

```
Set objFSO = CreateObject("Scripting.FileSystemObject")
Set objFolder = objFSO.GetFolder("C:\Upload")

Set colFiles = objFolder.Files

dtmOldestDate = Now

For Each objFile in colFiles
  If objFile.DateCreated < dtmOldestDate Then
    dtmOldestDate = objFile.DateCreated
    strOldestFile = objFile.Path
  End If
Next

objFSO.MoveFile strOldestFile, "C:\Download"
```
