

Content of Open a Database Using a DSN.vbs (Site 1)

' Description: Demonstration script that uses a DSN to open a database named Northwind.

```
Const adOpenStatic = 3  
Const adLockOptimistic = 3
```

```
Set objConnection = CreateObject("ADODB.Connection")  
Set objRecordSet = CreateObject("ADODB.Recordset")
```

```
objConnection.Open _  
    "Northwind;fabrikam\kenmyer;34ghfn&lj"
```

```
objRecordSet.Open "SELECT * FROM Customers", _  
    objConnection, adOpenStatic, adLockOptimistic
```

```
objRecordSet.MoveFirst
```

```
Wscript.Echo objRecordSet.RecordCount
```
