

Content of Require a User to Logon on Using a Smartcard.vbs (Site 1)

' Description: Configures the MyerKen user account so that the user must use a smartcard in order to logon to Active Directory.

```
Const ADS_UF_SMARTCARD_REQUIRED = &h40000
```

```
Set objUser = GetObject _  
("LDAP://cn=MyerKen,ou=Management,dc=NA,dc=fabrikam,dc=com")
```

```
intUAC = objUser.Get("userAccountControl")
```

```
If (intUAC AND ADS_UF_SMARTCARD_REQUIRED) = 0 Then  
    objUser.Put "userAccountControl", intUAC XOR ADS_UF_SMARTCARD_REQUIRED  
    objUser.SetInfo  
End If
```
