

Content of Save a File Using a File Save Dialog Box.vbs (Site 1)

' Description: Demonstration script that allows you to enter a file name in a File Save dialog box, and then saves a sample text file (consisting entirely of the current date) under that file name.

```
Set objDialog = CreateObject("SAFRCDlg.FileSave")

objDialog.FileName = "C:\Scripts\Script1.vbs"
objDialog.FileType = "VBScript Script"
intReturn = objDialog.OpenFileSaveDlg

If intReturn Then
    Set objFSO = CreateObject("Scripting.FileSystemObject")
    Set objFile = objFSO.CreateTextFile(objDialog.FileName)
    objFile.WriteLine Date
    objFile.Close
Else
    Wscript.Quit
End If
```
