

## Content of Split a String Only on Specific Instances of a Character.vbs ( Site 1 )

```
strText = "aaa&bbb&ccc&aamp;ddd"
strText = Replace(strText, "&amp;", "@@@@")
arrText = Split(strText, "&")
For i = 0 to Ubound(arrText) - 1
  arrText(i) = Replace(arrText(i), "@@@@", "&amp;")
Next
For Each strItem in arrText
  Wscript.Echo strItem
Next
```
