

Content of Subtract Days From a UTC Date-Time Value in Windows 2000.vbs (Site 1)

```
strComputer = "."
Set objWMIService = GetObject("winmgmts:\\" & strComputer & "\root\cimv2")
Set objOS = objWMIService.ExecQuery("Select * from Win32_OperatingSystem")
For Each strOS in objOS
    dtmInstallDate = strOS.InstallDate
    dtmDate = CDate(Mid(dtmInstallDate, 5, 2) & "/" & _
        Mid(dtmInstallDate, 7, 2) & "/" & Left(dtmInstallDate, 4))
    Wscript.Echo dtmDate - 30
Next
```
