

## Content of Suppress Windows Activation Notices.vbs ( Site 1 )

' Description: Suppresses the Windows Activation reminder notices on a computer. This does not preclude the need to activate the computer; it simply prevents users from seeing the periodic reminders.

```
strComputer = "."
Set objWMIService = GetObject("winmgmts:"
    & "(impersonationLevel=impersonate)!\" & strComputer & "\root\cimv2")

Set colWPASettings = objWMIService.ExecQuery _
    ("Select * from Win32_WindowsProductActivation")

For Each objWPASetting in colWPASettings
    objWPASetting.SetNotification(0)
Next
```
