Content of Write to a Custom Event Log Using EventCreate.vbs (Site 1)

' Description: Uses the EventCreate.exe utility to write an event to a custom event log named Scripts.

```
Set WshShell = WScript.CreateObject("WScript.Shell")

strCommand = "eventcreate /T Error /ID 100 /L Scripts /D " & _
    Chr(34) & "Test event." & Chr(34)
WshShell.Run strcommand
```
